

Part Number:00016-00076
Code: RX30

Conflicts

<p>1. Entune 2. Vehicle's with factory XM radio</p>

Kit Contents

Item #	Qty	Description
1	1	XM Module
2	1	XM Tuner Module
3	1	Wiring Harness
4	1	Hardware Bag
5	1	XM Antenna

Hardware Bag Contents

Item #	Qty Reqd.	Description
1	20	8" Black Cable Ties
2	2	Long Cable Ties
3	1	Foam Pad Sheet
4	1	Open Cell Foam Pad
5	1	Double Side Mounting Tape

Recommended Tools

Safety Tools	
Special Tools	
Installation Tools	
Phillips Screwdriver	Straight-Slot Screwdriver
Ratchet w/ Extension	10 mm Socket
Diagonal Wire Cutters	Common Pliers
Flashlight	Nylon Trim Tool
Torque Wrench (48 in. lbs.)	
Special Chemicals	
VDC Approved Cleaner	

Vehicle Service Parts (May be required for reassembly)

Part Number	Qty	Description
00016-00076-01	1	XM Module
00016-00076-02	1	Hardware Bag
00016-00076-03	1	XM Antenna
00016-00076-04	1	Wiring Harness
00016-00076-05	1	XM Tuner Module

General Applicability

<p>1. Display Audio Radios (w/o APPS button) 2. Base model radios</p>

Legend

	STOP: Damage to the vehicle may occur. Do not proceed until process has been complied with.
	OPERATOR SAFETY: Use caution to avoid risk of injury.
	CRITICAL PROCESS: Proceed with caution to ensure a quality installation. These points will be audited on a completed vehicle installation.
	TOOLS AND EQUIPMENT: This calls out the specific tools and equipment required for this process.
	REVISION MARK: This mark highlights a change in installation with respect to a previous issue.
	SAFETY TORQUE: This mark indicates that torque is related to safety.

<p>SPECIAL NOTE: After TMS and Safety mandated preparatory steps have been taken, the installation sequence is the suggested method for completing the accessory installation. In some instances the suggested sequence is written for one associate to install and in others the sequence is given as part of a team accessory installation. Unless otherwise stated in the document, the associates may perform the installation steps in any order to make the installation as efficient as possible while maintaining consistent quality. When possible, install T-Taps 1" away from connector.</p>
--

INSTALLATION PREPARATION

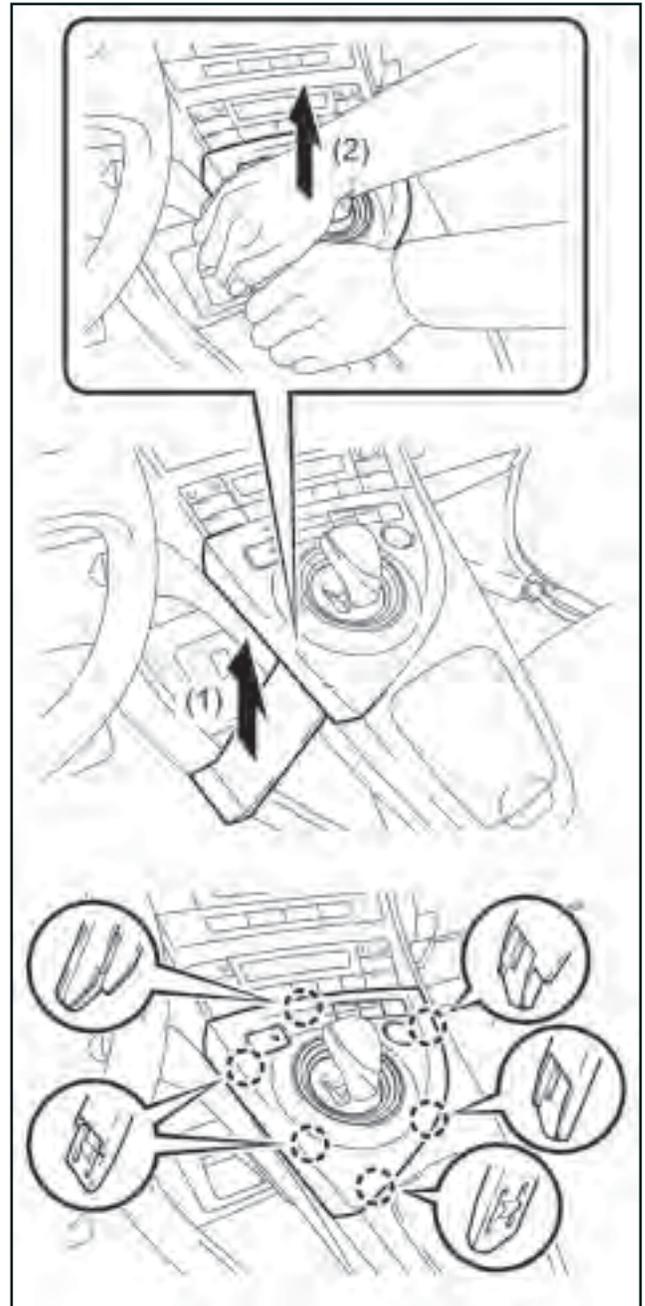

Before starting installation:

1. Familiarize yourself with the installation instructions.
2. Inspect the kit components (Refer to Kit Contents and Hardware Bag Contents).

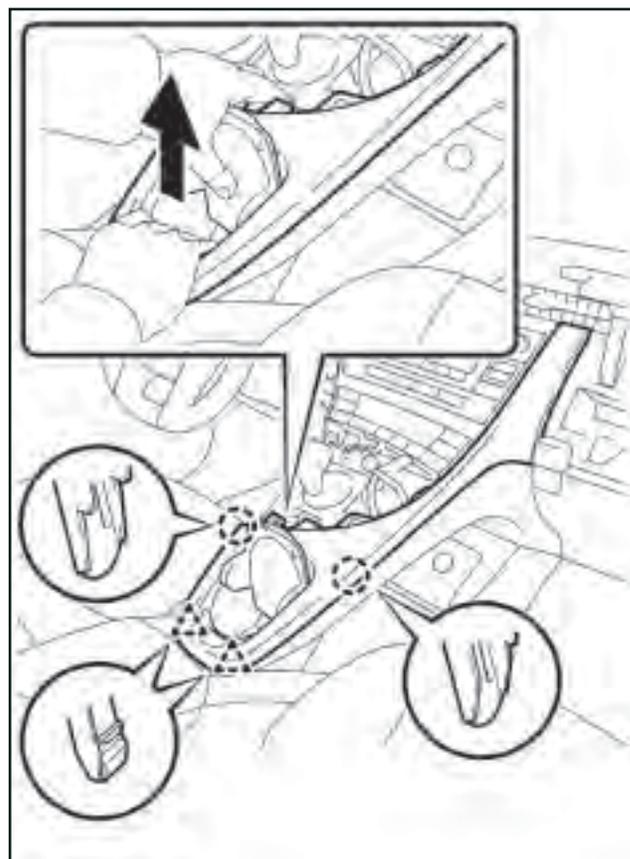

VEHICLE PREPARATION

1. Place protective coverings on vehicle.
2. **“IMPORTANT.....IMPORTANT”**
Disconnect Negative Battery Cable.
3. Using a moulding remover, slightly lift up on the integration control panel assembly. Remove the integration control panel assembly by disengaging the (6) claws.

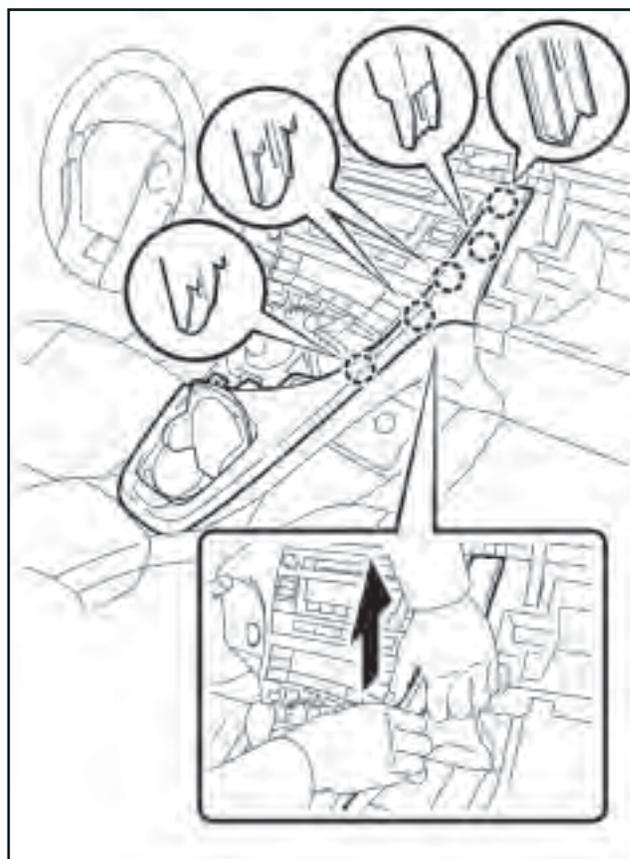

VEHICLE PREPARATION; continued

- Loosen the lower center instrument cluster finish panel sub-assembly by disengaging the (2) claws and (2) clips.

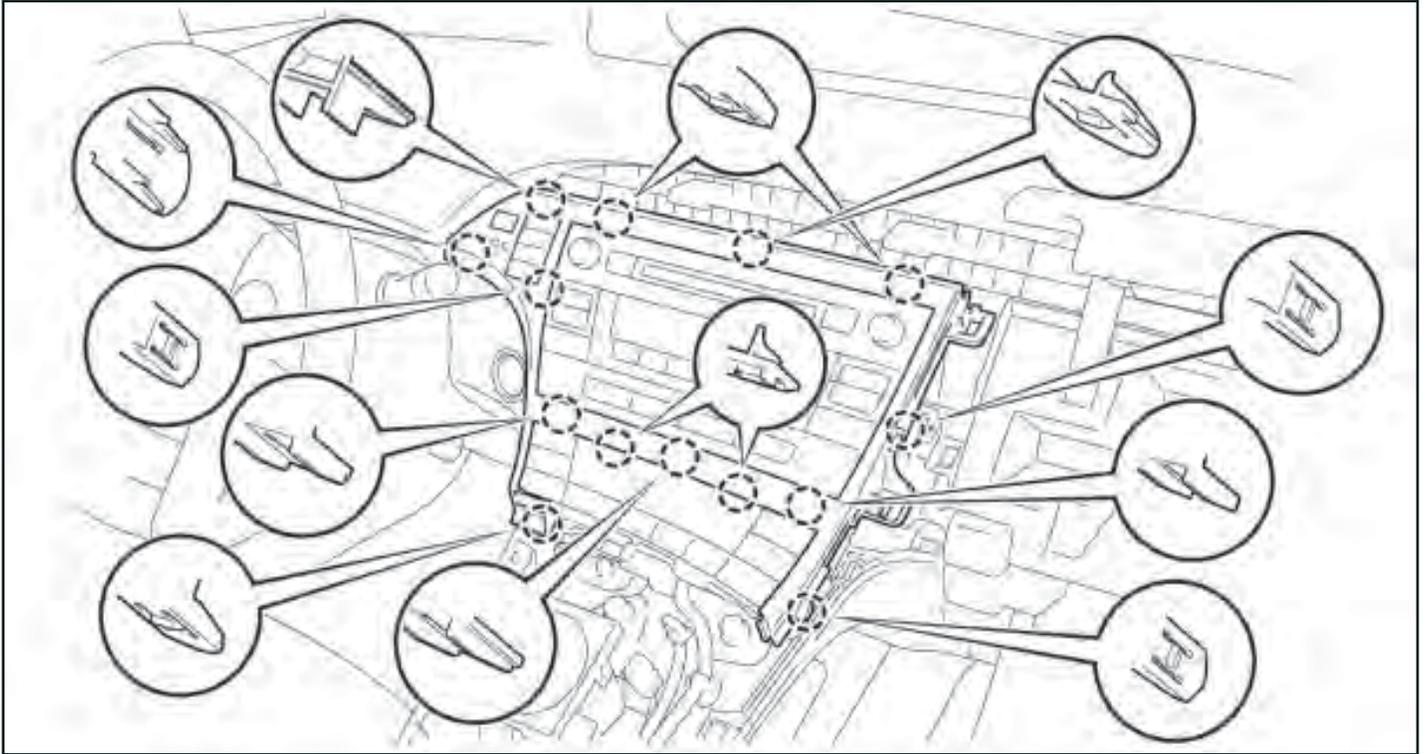

- Remove the lower center instrument cluster finish panel sub-assembly by pulling in the direction indicated by the arrow to disengage the (5) claws.

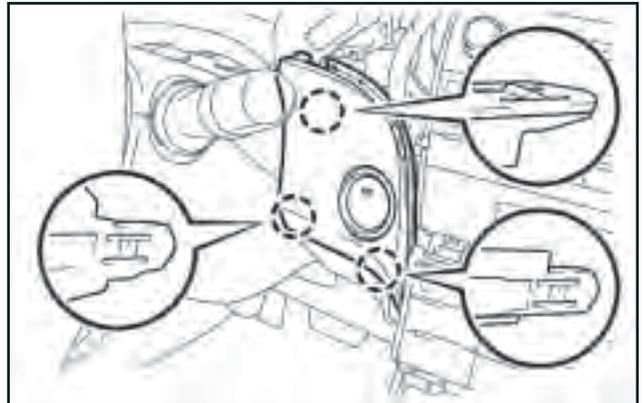

VEHICLE PREPARATION; continued

6. Remove the instrument cluster finish panel garnish by disengaging the (14) claws and disconnecting any connectors that may be attached, if equipped.

7. Remove the upper instrument panel finish panel sub-assembly by disengaging the (3) claws and disconnecting any connectors that may be attached, if equipped.

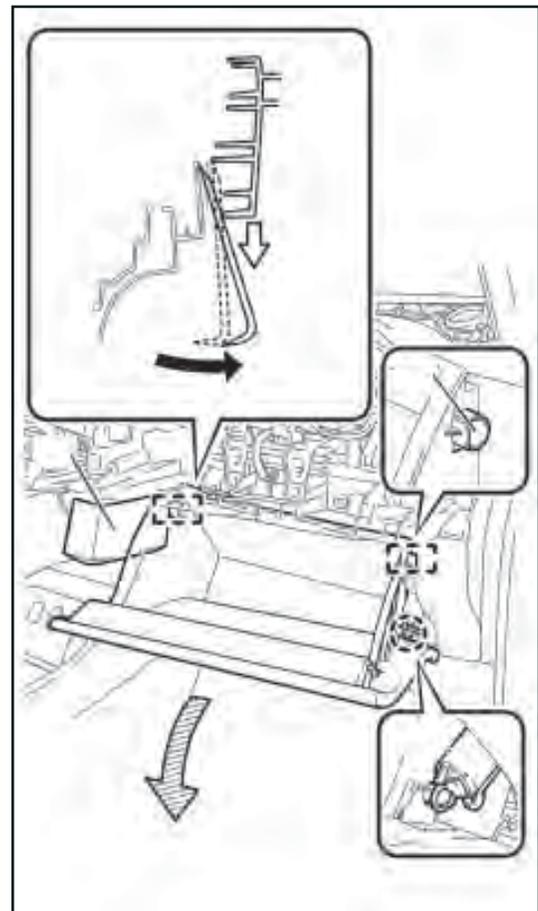

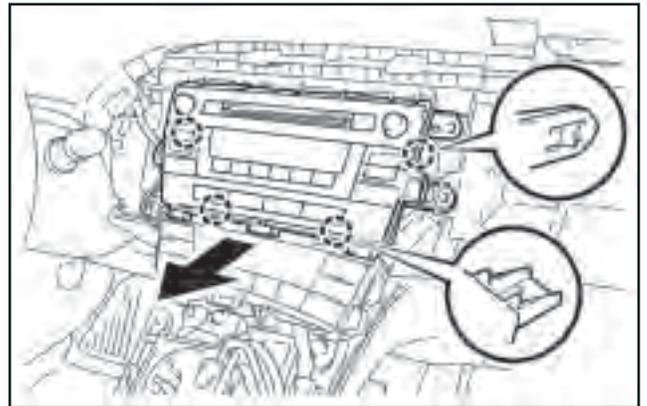

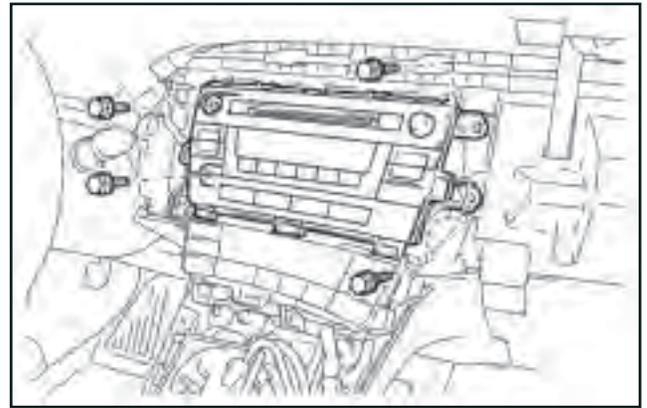

VEHICLE PREPARATION; continued

8. Remove the (4) 10 mm bolts securing the radio to the dash assembly.

9. Disengage the (4) claws securing the radio to the dash assembly. Disconnect any connectors and remove the radio from the vehicle.

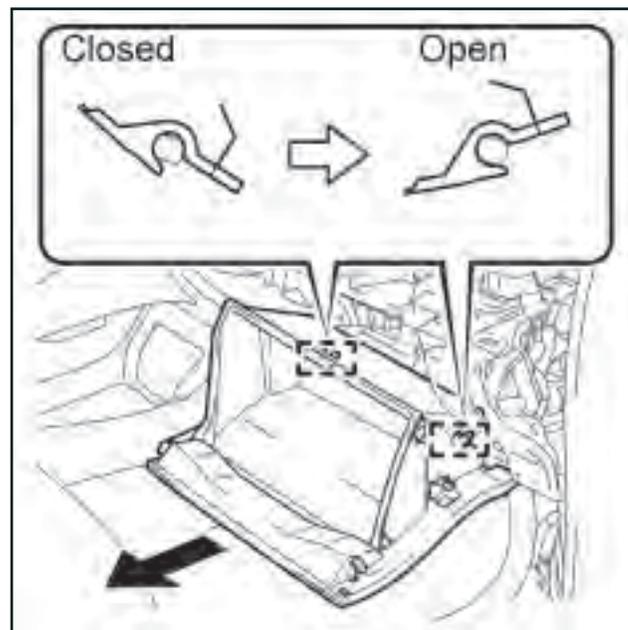

10. Remove the glove compartment door assembly.
 - a. Disengage the claw and release the glove compartment door stopper.
 - b. Insert a moulding remover into the location shown in the picture.
 - c. Move the moulding remover in the direction indicated by the arrow to bend the lower instrument panel sub-assembly and release the stopper.

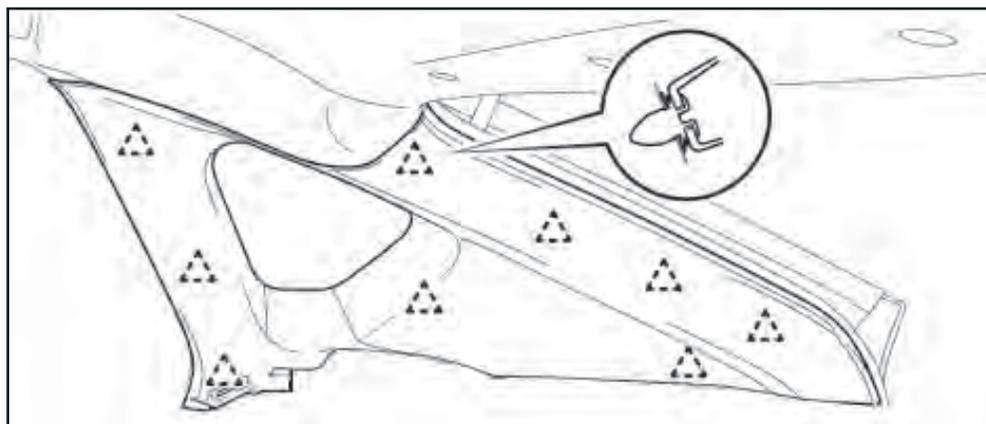

VEHICLE PREPARATION; continued

10. Remove the glove compartment door assembly; continued.

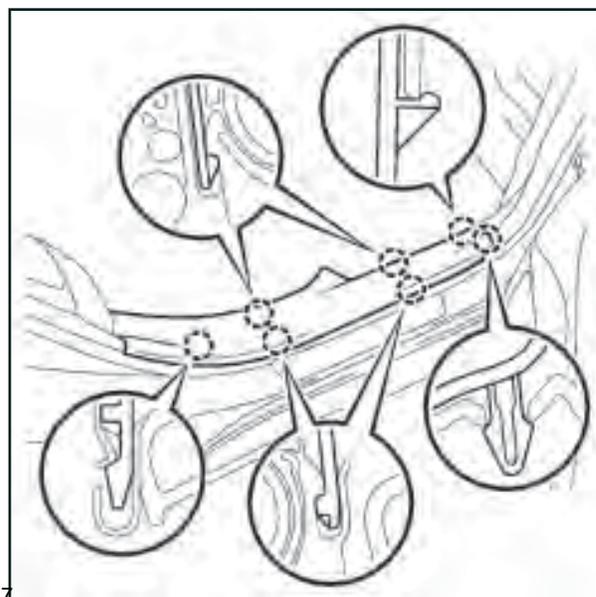

d. Open the glove compartment door assembly approximately 55° from its closed position. Pull it horizontally in the direction indicated by the arrow to disengage the (2) hinges and remove the glove compartment door assembly.

11. Loosen the passenger's roof side inner garnish assembly.

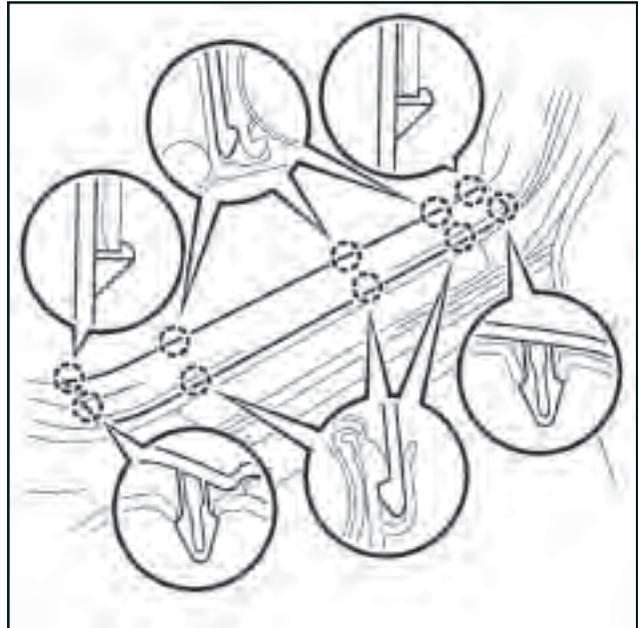

12. Remove the passenger's side rear door step sill plate, by disengaging the (7) claws.

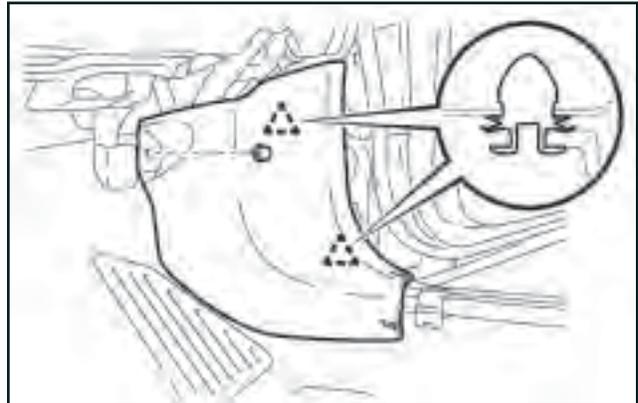

VEHICLE PREPARATION; continued

13. Remove the passenger's side front door step sill plate, by disengaging the (10) claws.

14. Remove the passenger's kick panel, by removing the plastic fastener and disengaging the (2) clips.

INSTALLATION PROCEDURES

1. Clean antenna base and antenna mounting location with VDC approved cleaner.
2. Attach provided double side tape to the underside of the XM antenna. Mount the XM antenna to the vehicle roof, as shown.

3. Secure the XM antenna cable to the body structure with provided foam tape.
4. Partially remove the rear hatch pinchweld gasket. Route the XM antenna cable over the pinchweld, into the rear passenger compartment.

5. Reinstall the pinchweld gasket.

INSTALLATION PROCEDURES; continued

6. Using a trim tool, route the XM antenna cable behind the passenger's roof side inner garnish assembly.

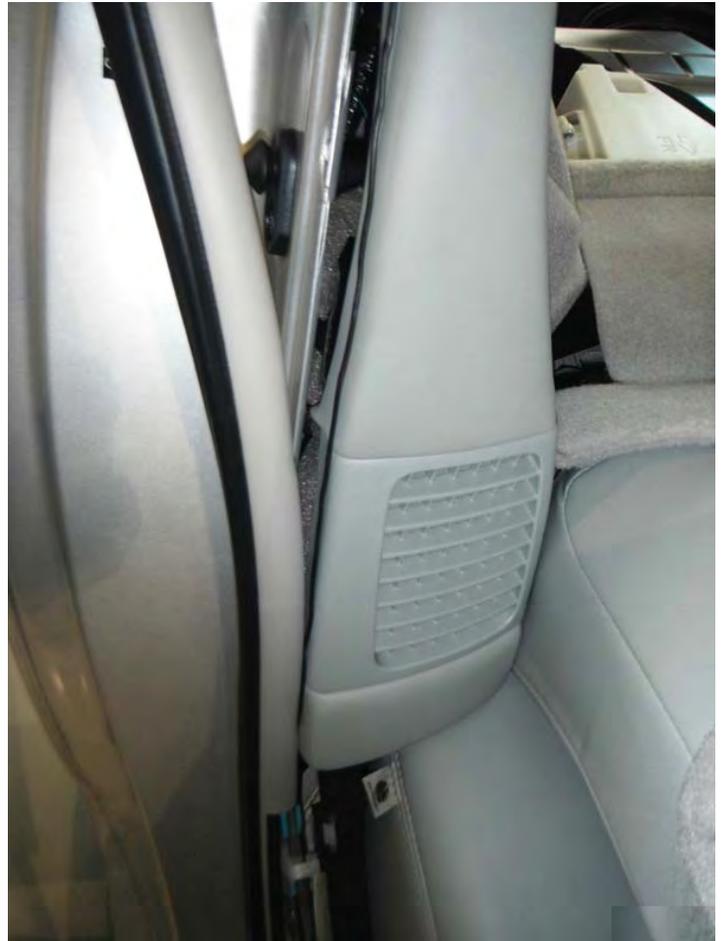

7. Partially remove the passenger's rear door pinchweld gasket.

INSTALLATION PROCEDURES; continued

8. Route the XM antenna cable down to the passenger's rear door step sill area.
9. Reinstall the passenger's rear door pinch-weld gasket.
10. Secure the XM antenna cable in the passenger's rear door step sill area, using the factory wire harness clips.

**Factory Clips**

INSTALLATION PROCEDURES; continued

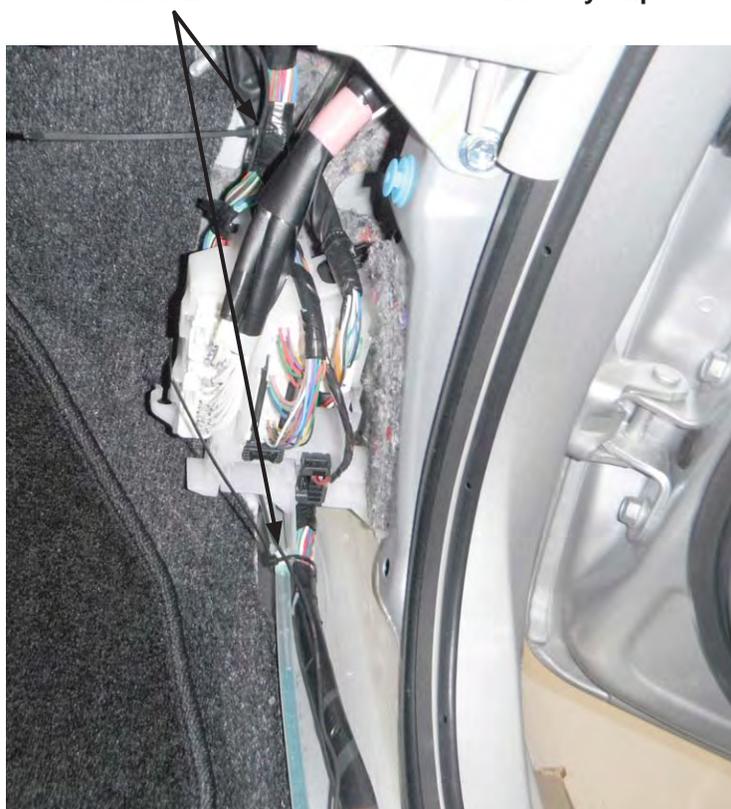

11. Route the XM antenna cable in the passenger's front door step sill area.
12. Secure the XM antenna cable in the passenger's front door step sill area, using the factory wire harness clips.

Cable Ties

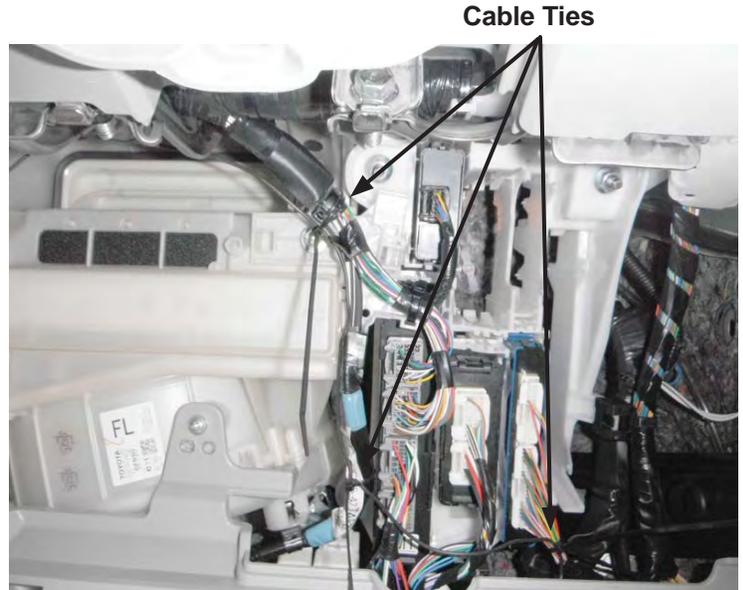

Factory Clips

13. Route the XM antenna cable in the passenger's kick panel area.
14. Secure the XM antenna cable in the passenger's kick panel area with (2) cable ties.

INSTALLATION PROCEDURES; continued

15. Route the XM antenna cable to the radio mounting area. Secure to the existing factory harness located behind the glove box with cable ties, as needed.

16. Verify the dip switch settings on the XM interface adapter, adjust if necessary.

Dip Switch #	Position	Function
1	On* (Down Position)	<i>Steering wheel controls.</i> On Display (touchscreen) radios, if the dip switch is in the UP position, the steering wheel button will function opposite of what the user wants.
2	Off* (Up Position)	Disables scrolling text. This may be desirable on base radios if the text "flashes", or of the customer finds text scrolling distracting.

* Default Position

Dip Switch #1 Dip Switch #2

17. Using electrical tape, attach the XM interface adapter to the XM tuner module.

18. Attach the XM antenna cable to the XM tuner module.

19. Attach the 9-pin black mini-DIN male connector from the XM tuner module to the 9-pin black mini-DIN female connector from the XM interface adapter.

XM Antenna

XM Interface Adapter

XM Tuner Module

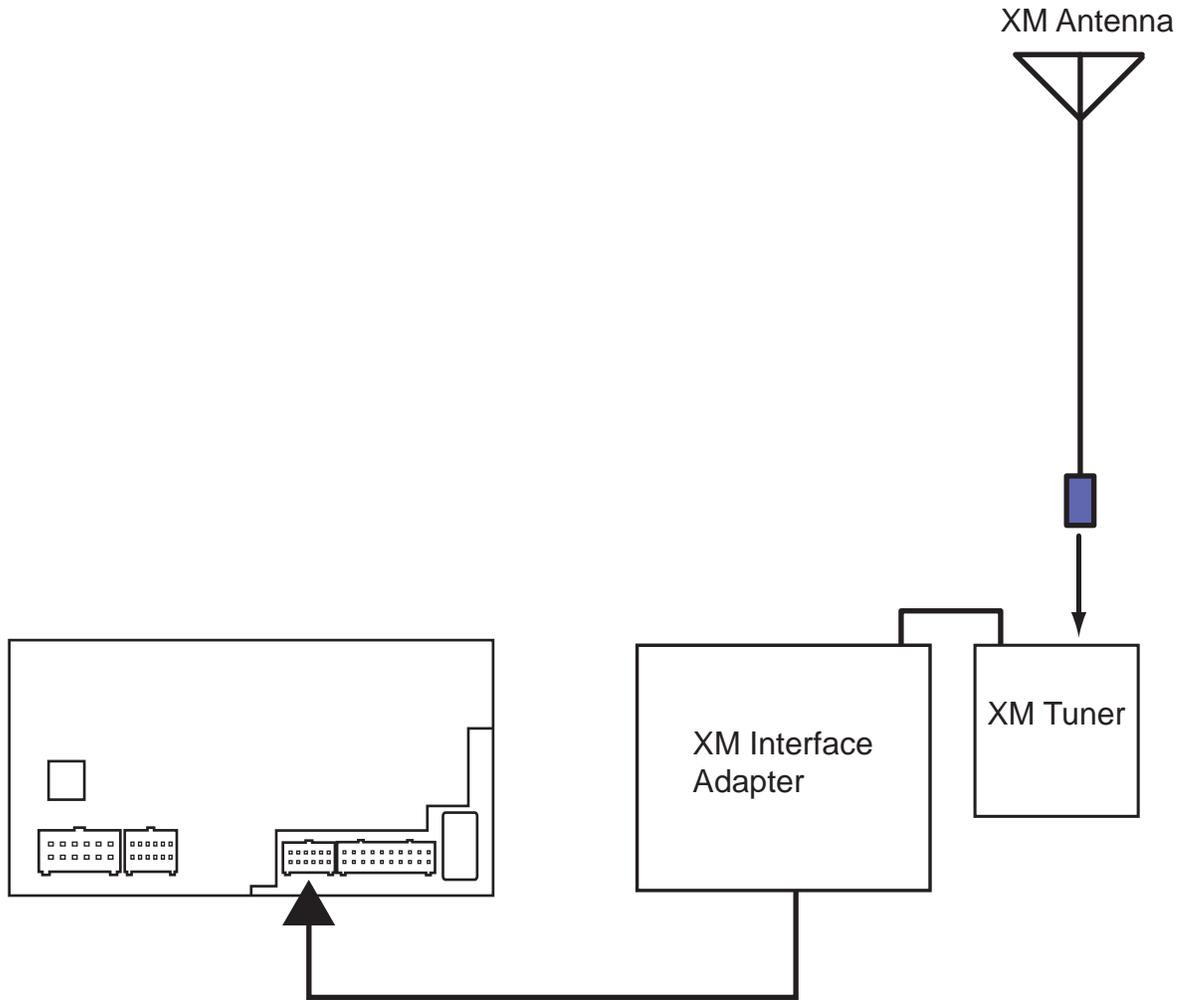

INSTALLATION PROCEDURES; continued

20. Secure the XM interface adapter, XM module and any excess antenna cable/harness to the factory brace located behind the navigation radio's mounting location with (2) cable ties.
21. Reinstall any harnesses that were removed from the rear of the radio during disassembly.
22. Attach the XM interface adapters 12-pin female connector to the radio's 12-pin male connector, located in the rear of the radio.

Note: Depending on the vehicle model and options, the factory radio may be using the 12-pin plug located on the rear of the radio. In these instances, use the XM interface adapter's "T-Harness", and plug the factory 12-pin female into the XM interface adapter's 12-pin male connector.

WIRING DIAGRAM

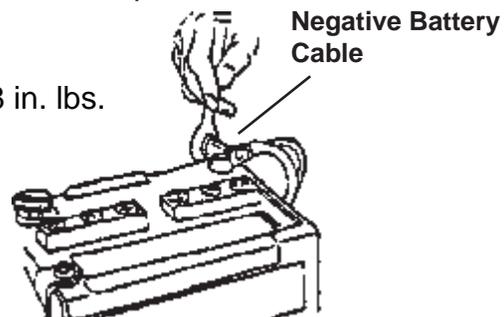

RE-INSTALL THE RADIO

1. Secure the radio to the dash assembly using the (4) 10 mm bolts previously removed.

**VEHICLE RE-ASSEMBLY**

1. Refer again to the vehicle repair manual and re-assemble all panels that were removed for installation back onto the vehicle.
2. Re-connect the negative battery cable. Torque to 48 in. lbs.

**TESTING THE XM RADIO**

1. Prior to delivering the vehicle, test all features of the factory system according to the vehicle's owner's manual.

XM RADIO FUNCTION CHECKLIST**THESE FUNCTIONS MUST BE CHECKED TO ENSURE A QUALITY INSTALLATION**

- Power-Up
- HD radio
- CD Audio
- Fade/Balance
- DVD Movie
- XM Radio
- iPod
- Bluetooth Test
- Navigation Test
- AV1
- AV2 (Media Hub)
- SD Card (MP3)
- USB Drive (MP3)
- Rear Camera (If equipped)
- SWC (Steering Wheel Control)
- Parking Lights
- Rear Monitors (If equipped)
- Factory Default Test
- Faceplate Visual Inspection

Note: Be sure to place owner's manual in the glove box after the function check.

VEHICLE FUNCTION CHECKLIST**(These points must be checked to ensure a quality installation)**
