Legend

	STOP: Damage to the vehicle may occur. Do not proceed until process has been complied with.
	OPERATOR SAFETY: Use caution to avoid risk of injury.
	CAUTION: A process that must be carefully observed in order to reduce the risk of damage to the accessory/vehicle and to ensure a quality installation.
	TOOLS & EQUIPMENT: Used in figures, calls out the specific tools and equipment recommended for this process.

1. Bracket Installation.

(a) Remove front license plate or paper placeholder.

 (b) Pre-drill dimples in bumper with a 1/8" (3mm) diameter drill bit, to a depth of approximately 1/8" (Fig. 1-1)

(c) Install license plate in license plate bracket, then screw into bumper at dimples. Use 25mm long screws on top, and 50mm long screws on the bottom. (Fig. 1-2, next page)

 (d) Drive screw until secure; do not over-tighten.
