Legend

STOP: Damage to the vehicle may occur. Do not proceed until process has been complied with.

OPERATOR SAFETY: Use caution to avoid risk of injury.

<u>CAUTION:</u> A process that must be carefully observed in order to reduce the risk of damage to the accessory/vehicle and to ensure a quality installation.

TOOLS & EQUIPMENT: Used in Figures calls out the specific tools and equipment recommended for this process.

REVISION MARK: This mark highlights a change in installation with respect to previous issue.

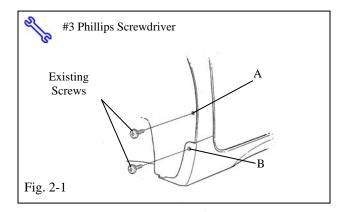

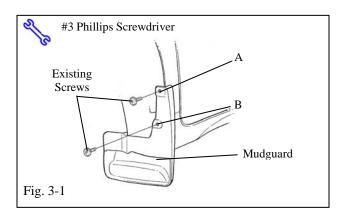

7 SAFETY TORQUE: This mark indicates that torque is related to safety.

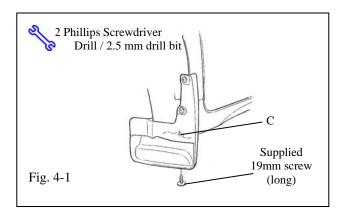

Procedure

Care must be taken when installing this accessory to ensure damage does not occur to the vehicle.

The installation of this accessory must follow all instructions and use supplied hardware to ensure an approved quality installation.

1. Clean Front Mounting Area

- (a) Clean and degrease front body panel use 3MTM Prep Solvent 70 or alcohol and water mixture.
- (b) When cleaning with 3MTM Prep Solvent-70 follow the manufacturer's directions. Do not allow cleaner to air dry.

2. Removal of Existing Screws

(a) Remove exisiting screws, locations A and B. DO NOT DISCARD (Fig 2-1)

3. Installation of Front Mudguard

(a) Mount mudguard on body panel and reinstall existing screws in location A and B while holding part up and into body panel. (Fig. 3-1)

4. Installation of Lower Mount Tab

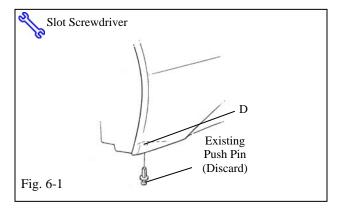

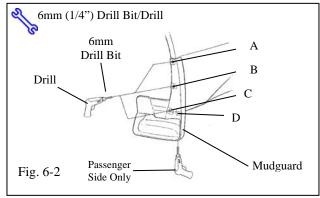

(a) While holding part in position, drill 2.5mm (3/32") pilot hole in location C. (Fig 4-1)

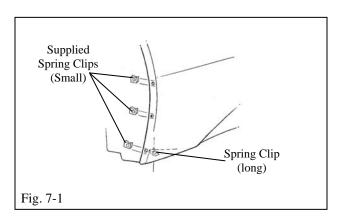

- (b) Install supplied 19mm (long) self tapping screw into location C while holding part into body panel. (Fig. 4-1)
- (c) Repeat procedure for other side

NOTE: For easier accessibility wheels can be removed or use a right angled drill.

5. Clean Rear Mounting Area

- (a) Clean and degrease rear body panel where mudguard is to be located with a clean, dry lint free cloth and 3M TM Prep Solvent-70 or alcohol and water mixture.
- (b) When cleaning with 3MTM Prep Solvent-70 follow the manufacturer's directions. Do not allow cleaner to air dry.

6. Mount Hole Preparation

(a) Remove existing push pin location D drivers side and discard. (Fig 6.1)

- (b) Mount mudguard, using part as a template, drill 6mm (1/4") holes in panel edge at locations A, B and C while holding part up and into body panel. Fig. (6-2).
- (c) Passengers side will require a hole to be drilled in location D mount tab, while holding part up and into body panel.

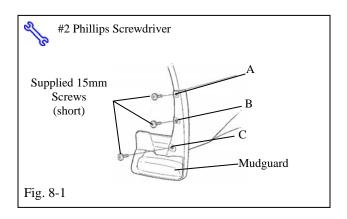

(d) IMPORTANT: Make sure mudguard is seated in the correct position before drilling. If holes are too low, gapping will occur.

Installation of Spring Clips

- (e) Install supplied spring clips (small) over panel edge holes location A, B and C with turned up edge on inside of panel.(Fig. 7-1)
- (f) Pull rear liner down and install supplied spring clip (long) over panel edge hole location D with turned up edge on inside of panel. (Fig 7-1)

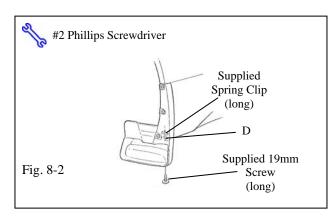

(a) Mount mudguard and install supplied screws 15mm (short) in locations A, B and C. Tighten screws while holding mudguard up and into body panel.

(Fig 8 - 1)

(c) For passenger side hold mudguard up and into body panel install supplied 19mm screw (long) and #10 spring clip (long) as a nut in location D. (Fig 8-2)
