Preparation

Part Number: PT936-03180-XX

Kit Contents

Item #	Quantity Reqd.	Description
1	1	Front Driver Door Guard
1	1	(Reference Pink Sticker)
2	1	Front Passenger Door Guard
		(Reference Blue Sticker)
3	1	Rear Driver Door Guard
		(Reference Green Sticker)
4	1	Rear Passenger Door Guard
		(Reference Yellow Sticker)

Hardware Bag Contents

Item #	Quantity Reqd.	Description
1	N/A	

Additional Items Required For Installation

Item#	Quantity Reqd.	Description
1	A/R	Minimum 70% Isopropyl
		Alcohol
2	A/R	Disposable Shop towels (i.e.
		Scott towels)
3	A/R	Blue painter's masking tape
4	1	Scissors

Procedure

THIS PAGE PPO ONLY

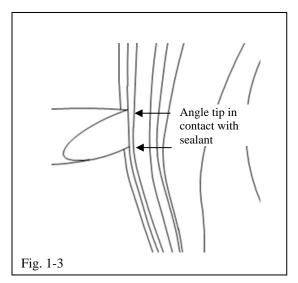

NOTE: Use the adjustment tool to verify if sealant is close to the door's edge. This must be done prior to **Door Edge Guard** installation to allow for proper fit (Fig. 1-1).

Align the adjustment tool to the edge of the door, with the angle edge positioned toward the inside of the door (Fig. 1-2).

Use the adjustment tool as a depth gage down the entire length of the door's edge. This is to verify that the sealant material is back away from the edge of the door to allow for proper Door Edge Guard installation.

If the vehicle has a sealant issue: To push back sealant, align the adjustment tool to the edge of the door, with the angle edge positioned toward the inside of the door (Fig. 1-3).

With the adjustment tool angle tip in contact with the sealant material, push the adjustment tool inward so that the notched section of the tool is in complete contact with the door's edge. Continue down the door's edge or sections of the door's edge that requires adjustment.

TOYOTA CAMRY/HV 2018 -

DOOR EDGE GUARD

Checklist - these points **MUST** be checked to ensure a quality installation. Check: Look For: **Accessory Function Checks** Confirm all Door Edge Guards are fully Look for a fairly consistent gap between the seated DEG and adjoining vehicle panels. Gently use forefinger and thumb to pull Door Edge Guard to ensure it is properly seated. Please follow the top, middle and bottom sequencing to gently pull the Door Edge Guard. **NOTE:** Normal vehicle manufacturing tolerances may exist that are not a consequence of an improperly seated DEG installation. **Vehicle Function Checks** Vehicle door operation Confirm both doors open and close without interference from DEG or Body Side Molding (if installed). Vehicle Appearance Check After accessory installation and removal of Ensure no damage (including scuffs and protective cover(s), perform a visual scratches) was caused during the inspection. installation process. (For PPO installations, refer to TMS Accessory Quality Shipping Standard.)
